

KWIK-WAY®

108 On-The-Car “Kwik-Lathe”

The
ORIGINAL
and
BEST SELLING
On-The-Car
Lathe!

Fast. Simple. Cost-Effective.

- Can be set up in minutes and operated by any technician with average skill and experience
- Ensures the rotor is always square to the caliper, producing an accurate machined surface that *exceeds* OEM specifications
- The Power Drive (*shown to the right*) attaches quickly and easily and provides a constant speed that assures a consistent finish
- Can be used on “powered” or “non-powered” wheels (*with optional Power Drive attached*)

108 “Kwik-Lathe”
mounted directly in
place of the caliper
(shown with optional
Power Drive attached
to the rotor)

108 On-The Car “Kwik-Lathe”
